

Participation in Japan Climate Initiative

Skylark Holdings Co., Ltd. has joined the Japan Climate Initiative (“JCI” hereafter), a network dedicated to realizing a decarbonized society.

JCI is a network established in July 2018 to strengthen the dissemination of information and exchange of opinions among companies, local governments, organizations, NGOs, and others actively working to combat climate change in Japan, and operates under the declaration "Japan will join the global frontlines of decarbonization".

(As of October 23, 2023, a total of 791 organizations are participating)

In addition to endorsing this declaration, as a member of JCI, we are committed to contributing to climate change issues by utilizing the information obtained through the network.
