Skylark Holdings Co., Ltd.

## **[First Among Domestic Foodservice Companies] Obtained International Greenhouse Gas Reduction Target SBT "FLAG\*1"**

Skylark Holdings Co., Ltd. has become the first domestic foodservice company to achieve SBT FLAG certification for its short-term targets, which include FLAG emissions covering greenhouse gas emissions from the production processes and land use of raw materials like agricultural and livestock products.

Certified Reduction Targets (Target Year: 2030, Base Year: 2018)

Scope 1 & 2 \*2: 50.4% reduction

Scope 3 \*2: 30.0% reduction

Scope 3 FLAG: 36.4% reduction

Signed the SBTi-required "Declaration to halt deforestation by December 31, 2025"

Moving forward, we will continue to work towards achieving the Paris Agreement's "1.5°C target" through our environmental considerations and climate change countermeasures. We aim to contribute to a sustainable society and enhance our group's corporate value, while striving to be a company trusted by all our stakeholders.

\*1 FLAG: An abbreviation for Forest, Land, and Agriculture sectors. It is required to manage and reduce greenhouse gas emissions specifically originating from these sectors.

\*2 Scope 1: Direct greenhouse gas emissions from a company's owned or controlled sources.

Scope 2: Indirect greenhouse gas emissions from the generation of purchased electricity, heat, or steam consumed by the company.

Scope 3: All other indirect greenhouse gas emissions that occur in a company's value chain, excluding Scope 1, Scope 2, and the FLAG sector. These are emissions associated with the company's activities but that occur from sources not owned or controlled by the company.
