Skylark Holdings Co., Ltd.

## [First among Domestic Food Service Companies] Obtained Third-Party Verification for Environmental Data

Skylark Holdings Co., Ltd. has undergone verification for the following environmental data by the Japan Management Association Climate Change Center, an independent third-party organization.

### ◆ GHG Emissions

- Scope 1
- Scope 2
- Scope 3 (Category 1, 2, 3)
- FLAG Emissions

### ◆ Energy Consumption

- Renewable Energy Consumption

### ◆ Water Withdrawal

### ◆ Wastewater Discharge

Furthermore, we have, for the first time as a domestic food service company, also obtained assurance for our FLAG emissions in this instance. We will continue to provide more reliable and transparent data to all our stakeholders, and will advance initiatives towards realizing a sustainable society, including decarbonization and water resource conservation.

For the verification results (limited assurance), please see below.

### Comments from the Verification Body

Verification Body: Japan Management Association Climate Change Center  
(CDP Accredited Verification Partner for Climate Change)

We have been conducting third-party verification of Skylark Holdings Co., Ltd.'s Scope 1, 2, and 3 since the 2022 fiscal year. The scope of verification has expanded annually, and for the 2024 fiscal year, we conducted third-party verification for calculations including Scope 1, 2, and 3, energy consumption, and water usage.

Furthermore, new initiatives by the company for the 2024 fiscal year include the calculation of FLAG (Forest, Land and Agriculture) emissions in Scope 3 Category 1, and calculations based on CO2 emission reduction efforts by brown rice purchasing farmers.

Our Association's responsibility is to perform a limited assurance engagement on the calculation information stated in the calculation report and to express a conclusion. We issued the verification report on May 12, 2025.
