Skylark Holdings Co., Ltd.

## **[First among Domestic Food Service Companies] Recognized as a 'Supplier Engagement Leader' with the Highest Rating in CDP's Supplier Engagement Rating**

Skylark Holdings Co., Ltd. has been selected as a "CDP2024 Supplier Engagement Leader," the highest rating in the "Supplier Engagement Rating" by CDP, an international environmental non-profit organization. This marks the first time a domestic food service company has received this top recognition.

This rating evaluates how effectively companies collaborate with their suppliers on climate change issues. It assesses excellent initiatives related to supplier engagement across four categories within the climate change questionnaire: Governance, Targets, Scope 3 emissions, and Value Chain Engagement.

Furthermore, our company has previously been selected for CDP's "Climate Change" and "Water Security" evaluations as the first domestic food service company to achieve the highest rating, the A List.

In our "Procurement Policy" and the related "CSR Procurement Guidelines," we pledge to contribute to preventing global warming by promoting greenhouse gas emission management and reduction activities in our business operations, while also engaging in the efficient use of energy.

Moving forward, we will continue to aim for the coexistence and co-prosperity of corporate activities and society/environment, together with our suppliers.
