Skylark Holdings Co., Ltd.

Endorsement of the Japan Climate Initiative (JCI) Decarbonization Declaration

Skylark Holdings Co., Ltd., as a member of the Japan Climate Initiative (hereinafter "JCI"), has endorsed the JCI Climate Action Japan Summit 2025 Declaration: "Leading the transition to a decarbonized society — We will never stop."

The JCI is a network of companies, local governments, NGOs, NPOs, and other organizations actively engaged in climate change measures to realize the goals of the Paris Agreement. The Company has been a participant in the JCI since 2023.

We have endorsed this declaration because it expresses the unwavering determination of Japanese non-state actors participating in the JCI to re-examine the magnitude of their will and mission to confront the climate crisis and to continue the challenge toward decarbonization, marking 10 years since the adoption of the Paris Agreement and looking ahead to COP30.

Skylark Group views climate change as a critical issue for global environmental conservation and will continue to promote the reduction of greenhouse gas (GHG) emissions.
