Skylark Holdings Co., Ltd.

## **[First among Domestic Food Service Companies] Selected for the First Time as a Constituent of the "Dow Jones Best-in-Class World Index"**

Skylark Holdings Co., Ltd. announces that it has been selected for the first time as a constituent of the "Dow Jones Best-in-Class World Index (DJBIC World)," a global ESG (Environmental, Social, and Governance) investment index. This marks the first time a Japanese foodservice company has been included in the index.

Furthermore, we have been selected as a constituent of the "Dow Jones Best-in-Class Asia Pacific Index (DJBIC Asia Pacific)" for the second consecutive year.

The DJBIC is a sustainability-focused stock index provided by U.S.-based S&P Dow Jones Indices. It evaluates major global companies and selects those that demonstrate outstanding sustainability across three dimensions: governance, environment, and social.

The "World Index" evaluates the top 2,500 companies worldwide by market capitalization, annually selecting the top-performing companies within each industry group. For 2025, 317 companies globally were selected (including 35 Japanese companies, of which our Company is one). In the Restaurants & Leisure sector, only three companies globally were selected, with our Company being the sole Japanese enterprise among them.

Moving forward, we will continue to further strengthen our ESG initiatives and strive for proactive information disclosure, aiming to be a company trusted by all our stakeholders.
